FID-3-30-20 to 4-3-20

You will read the following article online and complete the written activities.
If you can print the article, then you will be able to mark on the paper.

Site: kellygallagher articles of the week

You will see a list of articles. You are to read: “ You might be addicted: Smartphone Use Physically Affects Your Brain, Study Says “ If you are able to do so, print the article.

1. Read the article.
 2. While reading underline any words or confusing lines to you in red.
 3. While reading highlight main ideas (Close Reading)
 4. On theme tablet: Write a 1 page reflection: What did you think about the article? Do you agree or disagree with any of the ideas? Why? Write at least 8 sentences.
 5. After your written paragraph, answer the three questions at the end of the article.
- I gave you all week to complete this assignment, so you can do your own pacing.

 - 8th grade, I thought you would enjoy reading and writing about this topic!
 - We will discuss your thoughts on this topic when school starts again!

FID 3-30-20 Assignment

DreamBox ~ Work for at least 30 minutes.

FID 3-31-20 Assignment

On theme tablet, do problems # 1-3. Show all work. Be sure to write a statement to answer each question.

1. Mr. Mean assigned 1 homework problem the first night. On each of the following nights, he gave 3 times as many problems as on the previous night. After 5 nights, all homework problems for a particular chapter has been assigned. How many homework problems were assigned altogether over the 5 nights? (Hint: Make a Table/Look for a Pattern)
2. The mathematicians were having a convention, and they arrived in a very orderly way. The first time the door opened, 1 person entered. Each time the door opened after that, a group entered that had 2 more people than the previous group. The door opened 20 times. How many mathematicians attended the convention? (Hint: Make a Table/Look for a Pattern)
3. You have two buckets, one that will hold 4 quarts and one that will hold 9. There are no markings on either bucket to indicate smaller quantities. How can you measure out 6 qts. of water using these two buckets? There is an unlimited supply of water.

FID 4-1-20 Assignment

DreamBox ~ Work for at least 30 minutes.

FID 4-2-20 Assignment

On theme tablet, do problems # 4-6. Show all work. Be sure to write a statement to answer each question.

4. An average bath uses 136 L of water. A load of laundry requires 72 L, and a brief shower uses 32 L. Water costs \$0.035/L. The Lawrence family did 8 loads of laundry and took 21 baths and 10 showers last week. How much did they pay for water?

5. Jeannie joined a local weight-reducing club. She weighed $137\frac{3}{4}$ lbs. when she joined. The first week she lost $3\frac{1}{2}$ lbs. Then for 3 weeks she lost $1\frac{1}{4}$ lbs. each week. If she continues to lose at this rate, how many more weeks will it take her to reach her goal of 123 lbs.?
6. Mary's father asked her to mow their lawn while he was at work. She mowed $\frac{1}{3}$ of the lawn, watched a game show on television, mowed $\frac{1}{4}$ of the lawn, lay in the hammock for an hour, mowed $\frac{2}{10}$ of the lawn, and then went for a swim in her friend's pool. Her father arrived home from work to find that she had not finished the lawn. How much was left unmowed?
